COMPANY'S PROFILE

Backed by more than 30 years of experience in the field of Fasteners & Sheet Metal Components, we Rocky Enterprises have emerged as one of the renowned manufacturers of a wide range of industrial nuts, fasteners and allied products. Our range of products adhere to international quality standards and is made up of fine quality low carbon steel, high carbon steel, alloy steels and other raw materials. Our range of products include Fastener and Sheet Metal Components etc. With years of experience and in- depth understanding of the industry, we cater to the needs of a vast clientele with best solutions. We possess a well maintained manufacturing unit, which is equipped with advanced machinery for efficient production. Moreover, we possess a good warehouse that enables us to keep stock of our products; enabling us to provide a perennial supply of goods to our customers.

Our international standards of packaging have facilitated us to create a niche for ourselves in the industry. Our endeavors are always directed to meet the expectations of our valued clients and provide them with the desired range of products. It is due to our hard work and undeterred faith in high quality that we have been able to be associated with some of reputed names in the industries. Receiving their recurring orders is a clear indicator of our good performance and timely execution.
